

NOTICE TO QUALIFIED CONTRACTORS

Miami-Dade County is soliciting interested contractors to register to participate and perform in Miscellaneous Construction Contract (MCC) Bids under the MCC 7040 & 7360 Plan projects. Contractual Opportunities are continuously available for all businesses located in Miami-Dade who are interested in doing business with the County.

REGISTERING WITH MIAMI-DADE COUNTY MUST BE DONE VIA MIAMI-DADE COUNTY'S AUTOMATED WEB-BASED VENDOR REGISTRATION PORTAL. Please visit the **INTERNAL SERVICES DEPARTMENT (ISD) Vendor Services page** at <http://supplier.miamidade.gov>, to enroll as a vendor. If you have any vendor registration questions please contact Vendor Assistance at (305) 375-5773.

The types of contracts available under the MCC Program are construction projects, facility repairs, neighborhood improvements, emergency repairs and maintenance work with a maximum value of \$5.0M; ORD 09-101. All capital departments are participating.

Additional opportunities are available through Weatherization Assistance Program (WAP) which enables low-income families to reduce their energy bills by making their homes more energy efficient. Funds are used to improve the energy performance of dwellings by families in need, using the most advanced technologies and testing procedures available in the housing industry. Measures to make homes more energy efficient include: replacement or installation of key components, installation of energy recovery ventilation systems including bathroom and kitchen exhaust fans and installation of whole mechanical exhaust systems to provide better indoor air quality, install attic insulation, install window solar films, repair or replace inefficient cooling units, repair or replace water heaters and address air infiltration with weather stripping, caulking thresholds, minor wall repairs, ceiling and floors, windows and doors.

All solicitations are available online at: <https://www8.miamidade.gov/Apps/ISD/DPMWW/SolicitationList.aspx>

RPQ No: DRM-BBWQ2-2024- Biscayne Bay Water Quality Characterization and Pollution Reduction Phase II MDC

ESTIMATED COST: \$1,363,635.96

LICENSE REQUIREMENT: General Building, Contractor, General Engineering

SCOPE OF WORK:

The Biscayne Bay Water Quality Characterization and Pollution Reduction, Phase II, Miami Dade County (MDC) Project Scope of Work for this contract consists of furnishing all supervision, labor, materials, tools, equipment and performing all operations required to construct the work in accordance with the contract documents.

Work includes but is not limited to the construction and installation of drainage structures, drainage stormwater treatment systems, regrading swale, miscellaneous drainage improvements, driveway restoration, grading, sodding, and miscellaneous roadway restoration including construction of concrete curb and gutters, and sidewalks where needed, in accordance with the construction plans and specifications.

The Contractor shall abide by all conditions set forth on all the approved permits from Federal, State, and Local governments that pertain to this project.

The five (5) proposed sites are located at:

Project Site #1 - NW 32nd Avenue from NW 99th Street to NW 106th Street

The proposed improvements consist of installing one (1) Ecovault structure by EcoSense International and twenty-five (25) SOP Filter Baskets designed to remove solids, Total Nitrogen (TN), Total Phosphorus (TP) and bacteria from stormwater runoff prior to discharge to the Little River C-7 Canal.

Project Site #2 - NW 22nd Avenue from NW 94th Street to NW 105th Terrace

The proposed improvements consist of installing forty (40) Stormwater Curb Inlet Screens by SOP Technologies and one (1) Jellyfish Filter designed to remove solids, Total Nitrogen (TN), Total Phosphorus (TP) and bacteria from stormwater runoff prior to discharge to the Little River C-7 Canal.

Project Site #3 - NW 17th Avenue from NW 89th Street to NW 98th Street

The proposed improvements consist of installing one (1) Hydro DryScreen structure and thirty-nine (39) Stormwater Curb Inlet Screens designed to remove solids, Total Nitrogen (TN), Total Phosphorus (TP) and bacteria from stormwater runoff prior to discharge to the Little River C-7 Canal.

Project Site #4 - NW 12th Avenue from NW 88th Street to NW 83rd Street, and NW 83rd Street from NW 15th Avenue to NW 12th Avenue

The proposed improvements consist of installing forty-four (44) StormBasin filters designed to remove solids, Total Nitrogen (TN), Total Phosphorus (TP) and bacteria from stormwater runoff prior to discharge to the Little River C-7 Canal.

Project Site #5 - North Miami Avenue from NW 71st Street to NW 91st Street

The proposed improvements consist of installing forty (40) Stormwater Curb Inlet Screens and six (6) Stormwater Filter Baskets by SOP Technologies and two (2) Ecovault structures by EcoSense International designed to remove solids, Total Nitrogen (TN), Total Phosphorus (TP) and bacteria from stormwater runoff prior to discharge to the Little River C-7 Canal.

The proposed work must be performed by qualified personnel and in a professional and workmanlike manner in accordance with industry standards and practices.

Contractor must refer to the Request for Price Quotation (RPQ) and associated project documents for the detail Scope of Work.
