

NOTICE TO QUALIFIED CONTRACTORS

Miami-Dade County is soliciting interested contractors to register to participate and perform in Miscellaneous Construction Contract (MCC) Bids under the MCC 7040 & 7360 Plan projects. Contractual Opportunities are continuously available for all businesses located in Miami-Dade who are interested in doing business with the County. **REGISTERING WITH MIAMI-DADE COUNTY MUST BE DONE VIA MIAMI-DADE COUNTY’S AUTOMATED WEB-BASED VENDOR REGISTRATION PORTAL.** Please visit the **STRATEGIC PROCUREMENT DEPARTMENT (SPD) Vendor Services page** at <http://supplier.miamidade.gov>., to enroll as a vendor. If you have any vendor registration questions, please contact Vendor Assistance at (305) 375-5773 extension #1. The types of contracts available under the MCC Program are construction projects, facility repairs, neighborhood improvements, emergency repairs and maintenance work with a maximum value of \$5.0M; ORD 09-101. All capital departments are participating. Additional opportunities are available through Weatherization Assistance Program (WAP) which enables low-income families to reduce their energy bills by making their homes more energy efficient. Funds are used to improve the energy performance of dwellings by families in need, using the most advanced technologies and testing procedures available in the housing industry. Measures to make homes more energy efficient include: replacement or installation of key components, installation of energy recovery ventilation systems including bathroom and kitchen exhaust fans and installation of whole mechanical exhaust systems to provide better indoor air quality, install attic insulation, install window solar films, repair or replace inefficient cooling units, repair or replace water heaters and address air infiltration with weather stripping, caulking thresholds, minor wall repairs, ceiling and floors, windows and doors.

All solicitations are available online at: <https://www8.miamidade.gov/Apps/ISD/DPMWW/SolicitationList.aspx>

6) Parks, Recreation and Open Spaces – Monique Perez – (305) 755-7949

RPQ No: 2026TROPSR - Tropical Park - Stables A-E Building Repairs

ESTIMATED COST: \$850,000.00

LICENSE REQUIREMENT: General Building Contractor, Building Contractor

SCOPE OF WORK:

CONTRACTOR shall furnish all necessary supervision, labor, tools, materials, and safety equipment required to provide a complete installation of the Tropical Park Stable A-E – Building Repairs in accordance with the following.

The work consists of performing structural repairs to the existing Stable A- E buildings at Tropical Park, including concrete spall patching and epoxy crack repairs on the precast double T roof framing system and adjacent structural elements. Repairs involve removing deteriorated concrete, evaluating and cleaning exposed reinforcing steel, installing replacement reinforcement where necessary, applying approved bonding agents, and placing structural repair mortar to restore original profiles. Cracks will be routed, sealed, port installed, and injected with low viscosity epoxy in accordance with manufacturer requirements. All repairs must be performed in accordance with the structural notes, material specifications, and repair details in the construction documents and coordinated with the Owner and Engineer throughout the process. This project involves rehabilitating deteriorated portions of the Stable A-E concrete roof system and related structural components to restore their integrity and performance.

Contractor shall submit all proposed repair materials—including patching compounds, structural mortars, bonding agents, corrosion inhibitors, epoxy injection systems, and reinforcement—to the Engineer of Record for review and approval prior to use.

The Contractor shall prepare and submit an initial mockup of the proposed repair procedures, based on approved product submittals, demonstrating all steps of concrete spall repair and epoxy crack injection—including surface preparation, reinforcement cleaning, bonding agent application, patch placement, and port injection methods—for review by the Owner, Engineer, and Special Inspector prior to proceeding with full production work.

Contractor shall provide, install, maintain, and remove all necessary shoring and temporary bracing to ensure structural stability during repair operations. When required, engineered shoring drawings must be pre-pared and certified by a licensed professional engineer.

The Contractor shall phase the work so that repairs are completed one stable at a time, with each stable fully repaired and accepted before work begins on the next, and progression shall occur only after final approval of the completed work by the Owner, the Special Inspector, and the Building Department.

Contractor must refer to the Request for Price Quotation (RPQ) and associated project documents for the detail Scope of Work.
